Modul-System

As a customer of Modul-System, you can feel confident that you have made a wise choice. We have more than 40 years of experience in the industry, and have been working with our safety program for many years. Today, we use some of the most highly reputed safety centers in the world to carry out crash testing, including the Volvo Cars Safety Centre. However, experience alone is not enough. Our ability to be forward-thinking along with taking the time to understand each of our customer's requirements is equally important. For every one of our development projects, we conduct forums with customers and end-users alike, which enables us to create innovative, new products.

Quality-assured down to the last detail

Our products comply with the European TÜV standard. Through ISO 9001 certification, we can ensure quality at every stage from development and manufacturing through to sales, customer service and delivery. This enables us to offer a 36-month warranty on all of the products that we manufacture ourselves. In addition, we can also provide the fastest and most reliable deliveries in the industry.

Modul-System Service Centers

For many years, we have had an established and broad network of Service Centers across Europe. Each Service Center is an authorized retailer with the expertise required to meet your specific needs, as their personnel have a full understanding of our products, and how to install them into your vehicle. They can also supply you with wall and floor linings, electronics and accessories such as lighting, cargo restraints, and roof racks.

20100268	3132 mm	324 mm	1350 mm	102.9

A safe choice

Our racking solutions are produced in our own factory in Sweden. The products are produced using some of the most advanced production technologies in Europe and the manufacturing processes meet ISO 9001 certification and also comply with the European TÜV standard.

Safety and quality are of paramount importance to Modul-System. We invest a lot of time and energy into the development of innovative, new products and then carry out stringent tests to make sure that the end product is of the highest quality possible. This includes laboratory, load capacity and vibration tests - simulating real use (3D) along with durability tests to replicate the complete product life cycle, ensuring that the products are designed to cope with the harsh environment that the vehicle and conversion can sometimes be subjected to.

Comprehensive crash testing is carried out at specialist research facilities as part of Modul-System's commitment to safety. The tests are known as ECE R17-07 with a 20g pulse for 30ms. This test is identical in all major respects to the DIN 75410-2 test, which is the equivalent to a crash at a speed of approximately 50 km/h.

Accessories

Grab handle
Part No: 50014-03

Load stop
Part No: 50250-03

Kit tool holders
Part No: 10848 (15 pcs)
Part No: 10849 (30 pcs)
Part No: 10850 (50 pcs)

Mobil-Box
Part No: 10566, width 486 mm (low)
Part No: 10563, width 486 mm (high)

Storage holder for Mobil-Box
Part No: 50230-03

Lashing eyelet
Part No: 50025-03

Ambient light
Part. No: 19701-03 - 324 mm
Part. No: 19702-03 - 648 mm

Lashing with narrow strap, 2.0 m (2 pcs)
Part No: 11722

Lashing with ratchet, 4.5 m
Part No: 11716

Modul-Box 324 x 324 mm, Part No: 10487-03
Divider, width 324 mm, Part No: 10488-03
Window, width 324 mm, Part No: 10489-03
Handle, width 324 mm, Part No: 10490-03

Modul-Box 162 x 324 mm, Part No: 10480-03
Modul-Box 162 x 486 mm, Part No: 10481-03
Divider, Width 162 mm, Part No: 10482-03
Window, Width 162 mm, Part No: 10483-03

Insert for drawers
For 108 mm high drawer, Part No: 10530-03*
For 108 mm high drawer, Part No: 10533-03**
For 162/216 mm high drawer, Part No: 10535-03***
*162 mm length, 324 mm depth, **324 mm length, 486 mm depth,
***324 mm length, 324 mm depth.
